Give three observations/suggestions to improve the overall teaching -learning experience in your institution

36 responses

They should need to complete the entire syllabus
Some teachers are just excellent in teaching and they teaches very well.My learning experience is good in my college because there is very good teachers for teaching and helping the students in their study for the other things. Thankyou

.
- *Suggestion*: Implement digital tools, such as interactive whiteboards, educational apps, and online resources, to create a blended learning environment. This can facilitate personalized learning, improve student engagement, and increase accessibility
- *Suggestion*: Adopt a student-centered approach that focuses on individual needs, interests, and abilities. This can involve strategies like project-based learning, peer-to-peer learning, and flexible assessment
- *Suggestion*: Provide regular training and workshops for teachers to enhance their pedagogical skills, familiarize them with new technologies, and encourage innovative teaching practices. Additionally, establish a feedback mechanism that allows teachers to receive constructive feedback from students and peers, promoting continuous improvement.

1. Integration of technology
2. Personalised learning approaches
3. Experiential and Project based learning
Thanks
(Arshe Alam)

Use the mike in classroom because we are not heard clearly what professor's are saying

1. Paper Evaluation and examination should be conducted fairly
Timming of classes should be changed from afternoon to morning for better productivity
3. A more safe campus should be made and maintend

More use of ict
More experiential learning should be promoted

Use Digital board ,

1) communication gap between student and teacher should be reduced
2) Teacher should use modern technologies while explaining the lesson such as smart board, ppt etc
3) I think for M. Sc students there should be seminars like one day teacher, or topic group discussion.

•Improvement in infrastructure facilities
•Inclusion of more curricular activities,more than just static syllabus
•Use of interactive methods of teaching by the professor's .

Provide proper library with recently published books , should provide proper equipments to perform experiments in laboratory also enchance the e learning platform to understand things in a more elaborative manner

Security should be increased in the college, examination should be taken in a fair way,more curricular Activities should be promoted

Very kind and helpful

No thanks

Please maintain Discipline of students, teachers and staff also

Develop a strong alumni network to provide mentorship, internships, and job opportunities for students. Alumni can also contribute to infrastructure development or help in organizing guest lectures and workshops.

Focus more on the weak part of student

Proper notes provide

I am Not satisfy.

Better laboratory equipments
More Focus on research and development
Better library facilities

Care

1. Lack of new books in departmental library
2. Cartographic instruments are old , not work properly
3. Drinking water purifier not work properly

Good

Mujhe bas job chahiye uske preparation chahiye

Very nice

- *Suggestion*: Implement digital tools, such as interactive whiteboards, educational apps, and online resources, to create a blended learning environment. This can facilitate personalized learning, improve student engagement, and increase accessibility.

- *Suggestion*: Adopt a student-centered approach that focuses on individual needs, interests and abilities. This can involve strategies like project-based learning, peer-to-peer learning, and

flexible assessment
- *Suggestion*: Provide regular training and workshops for teachers to enhance their pedagogical skills, familiarize them with new technologies, and encourage innovative teaching practices. Additionally, establish a feedback mechanism that allows teachers to receive constructive feedback from students and peers, promoting continuous improvement.

1.Unity
2. class discipline
3. honest to the student

Please use ppt project method while teaching and gave case study. .

We saw overall experience as fine and need to continue it

Awesome

- *Suggestion*: Implement digital tools, such as interactive whiteboards, educational apps, and online resources, to create a blended learning environment. This can facilitate personalized learning, improve student engagement, and increase accessibility
- *Suggestion*: Adopt a student-centered approach that focuses on individual needs, interests, and abilities. This can involve strategies like project-based learning, peer-to-peer learning, and flexible assessments.

- *Suggestion*: Provide regular training and workshops for teachers to enhance their pedagogical skills, familiarize them with new technologies, and encourage innovative teaching practices. Additionally, establish a feedback mechanism that allows teachers to receive constructive feedback from students and peers, promoting continuous improvement.

Ashutosh Kumar is very bad teacher. He doesn't cooperate with students.

DIGITAL BORD

ICT should be used in teaching
Teaching should be connected with research
Various awards n certificates should be provided to students for encouragement

permanent teachers not guest faculty majorly guest faculty here
proper infrastructure such as digital board ,mic,,drinking water, canteen hostel
opportunities for student to skill up their knowledge

Infrastructure needed,Modern technology needed,Change in teaching pattern

You people suck
