NAVANA
TECHNOLOGY FOR THE NEXT BILLION USERS

WE'RE HIRING VOICE/AUDIO DATA VALIDATORS IN BENGALI AND BHOJPURI LANGUAGES

ABOUT THE ROLE

Navana Tech is a company born out of the vision to create vernacular and voice based technology for the next billion users to enable independent and confident use of digital services. As a Voice/audio Validator at Navana, you will be helping us in verifying the quality and accuracy of dialect-specific voice data in the respective languages.

We're looking for like-minded individuals with both linguistic skills and skills to operate smartphones who can commit 3-4 hours on a daily basis for a period of 3-4 weeks.

RESPONSIBILITIES

- Validate/verify the accuracy and quality of voice/audio data
- Provide accurate grading/rating for each audio file assigned.
- Provide language based input and assist with diverse tasks associated with language model training.

REQUIRED SKILLS

- Must have basic fluency in English.
- Must have access to a Smartphone and be comfortable using it.

- Must have expert level fluency in any of the following dialects of the respective languages:

BENGALI
